

Abstract

Novel $\beta 10$ polypeptides and heterodimers thereof, and nucleic acid molecules encoding the same are disclosed. The invention also provides vectors, host cells, selective binding agents, and methods for producing $\beta 10$ polypeptides and heterodimeric forms thereof, specifically $\alpha 2/\beta 10$. Also provided for are methods for the treatment, diagnosis, amelioration, or prevention of diseases with $\beta 10$ polypeptides and $\alpha 2/\beta 10$ heterodimers or their respective binding agents.
